Exodus - The Third Age
of Darkness

The legacy of Mondain
was thought to be ended,
but it was soon
discovered that the union
between Minax and himself
had created an entity
known as Exodus. Exodus
unleashed even more
hordes of minions upon
Sosaria. Again Lord
British summoned the
Stranger, and again the
Stranger appeared, this
time with three friends.
They fought their way
into the Dungeons, and
seared their flesh with
four marks. They traveled
to Ambrosia, where they
meditated at shrines and
collected four strange
cards. They then banished
the Great Earth Serpent,
entered Exodus's castle,
slew his minions, and
finally with the cards
destroyed Exodus as well.
Exodus's death caused the
land to change into the
layout it is still in today.
